FRATERNISATION ON THE
RUSSIAN FRONT.

GERMANS HAVE HAD ENOUGH
OF IT.

Petrograd, June 22.

German aeroplanes, on the North-
ern front, have dropped messages
thanking the Russians for their
fraternisation, enabling the Germans
to transfer their troops to the West
front, to support their defence against
British and French attacks.

The message concludes: "Now we
have had enough. We are going to
fight and will fire on fraternisers."

DROUGHT IN GERMANY.

Amsterdam, June 22.

Except for occasional violent hill
storms, there has been no rain in
the East of Germany for eight weeks.
The hay crop is ruined and the
position of the grain crops is very
serious.

The drought is so bad in Bavaria
that the Ministry of Agriculture has
ordered streams to be dammed in
order to inundate fields.

Hail and thunder storms have
devastated the whole area between
Brieg and Ohlau, in Silesia.

EXTENSION OF THE BRITISH
LINE.

London, June 22.

Much interest is aroused by the
extension to the north of the British
line in Belgium, as indicated by
Field-Marshal Sir Douglas Haig's
dispatch last night.

French and Belgian troops had
previously held the line to the north
of Ypres, but the report of German
raids on British posts at Lombard-
zyde, on the sea coast, reveals
officially that the British now hold
the extreme northern point of the
line.

battalion of stretcher bearers, Lance-
Corporal Parker helped to remove
the wounded under very heavy fire,
although seriously wounded. He
showed conspicuous bravery for four
consecutive days.

FROM ESTATE BROKER TO
GENERAL.

London, June 22.

The newspapers pay a tribute to
General Sir Arthur Currie, the new
Commander of the Canadian Corps
in France, who was an estate broker
in Vancouver before the war. They
declare that those acquainted with
General Sir Arthur Currie are con-

NEGRI SEMBILAN.

SUCCESSFUL CHANGE FROM MINING TO AGRICULTURE.

In his administration report for 1916, Mr. A. H. Leman, British Resident, Negri Sembilan, says—

From the point of view of the State finances, the year was a satisfactory one, the revenue being 2½ times the revenue of the years following the decline of the mining industry in this State and nearly 14 millions more than any previous year, while the total value of imports and exports was about 50 per cent. higher than the previous year and double of the year before that. It may fairly be held that the State finances have successfully surmounted the change from a State mainly dependent on mining for its revenue to one almost exclusively agricultural. Although the progressive development of the State has been necessarily retarded in some ways by the war, there is progress to report in most directions and, provided the economic basis of the State's prosperity can be widened, there seems every reason to anticipate that it will continue to advance steadily in the future. Except in the Seremban and Coast Districts, the Malays form the great bulk of the population, and it is to be hoped that the development of the country will not lead to a change in this respect.

The revenue from all sources for the year 1916 amounted to \$4,594,135 as compared with \$3,129,512 for the year 1915 and \$2,590,517 for the year 1914. It exceeded the estimate by \$1,000,384 and the revenue for 1917 by \$1,464,023.

The total expenditure for the year was \$2,720,408 as against an estimate of \$2,550,767. The excess of assets over liabilities at the beginning of the year was \$11,145,578. At the end of the year it was \$3,011,000, an increase for the year of \$1,865,421.

AGRICULTURE.

The total area under cultivation may be roughly placed at 240,000 acres, of which about 170,000 acres are under rubber, 31,500 under padi, and about 30,000 under equanots and fruit trees. Of the area under rubber, about 104,500 acres are in the Seremban and Coast Districts, 37,000 in the Tampin District, 29,000 in Kuala Pilah, and 7,500 in Jelebu. The extension of the cultivation of rubber by Malays and Chinese in small blocks continues. With regard to pests the Assistant Agricultural Inspector reports that Pink disease was reported for the first time on five estates, making the total of estates on which it has been reported 30, but was not very troublesome. Die-back has been met with but is not very common. Ustilum zonata is common among old rubber and Pomes semibotus in new clearings. There have been cases of canker also, but the white-ant appears to be the worst trouble that planters have to contend with. Of the native holdings inspected, the Inspector writes that diseased trees were seldom met with and were cut out when ordered. Occasional do well in Negri Sembilan, especially in the Coast District, yield above the average and are fairly healthy. It is a pity that this cultivation does not extend to any appreciable extent and that in some cases healthy trees are cut out to make room for rubber. The Agricultural Department was active in compelling owners to keep their holdings clear of dead stumps and rubbish and eliminate beetles. During the year the export duty on coconut oil was abolished but the establishment of oil mills in the various districts is a desideratum. At present little oil is manufactured and the Malay makes little profit from his trees. The areas under padi in the various districts shows a small increase, but the native Malay population is far too engrossed in planting rubber to take much interest in opening up new swamps, and the care of the fields is being to an increasing extent left to the women.

MINING.

The revenue from all sources connected with mining for the year was \$211,174 as compared with \$244,497 in 1915 and \$302,055 in 1914. Of the decrease, \$25,272 was in export duty on tin and tin ore, which, in spite of good prices, amounted to only \$169,595. This does not include duty on tin from Negri Sembilan ore exported via other States, which amounted to 5,547 piculs. The decline in the tin revenue of the State has been continuous since 1900. In that year, it amounted to about 40 per cent. of the State revenue, whereas in 1916 it was less than 4 per cent. The actual quantity of tin and tin ore reduced to a metallic basis produced in the State is estimated by the Senior Warden at 20,544 piculs, of which 15,240 piculs paid duty to the State. The corresponding figures for 1916 were 20,049 piculs and 20,000 piculs, and for 1915, 35,000 piculs and 28,512 piculs. The average price of tin for the year was \$27.55 per picul as compared with \$28.17 in 1915. The output of wolfram was 1,132 piculs, which was 128 piculs less than in 1915 and 788 less than in 1914. No scheelite was won during the year. The gold won in, and exported from the State was 120 ounces, of which 110 ounces came from Rambai. In the previous year the amount was 142 ounces.

The trade returns as compared with the previous year show an increase of 57 per cent. in the value of the exports and 43 per cent. in the value of the imports. The imports for 1917 were, however, lower than in any of the preceding years, and the export figures for 1916 are actually less than those for 1915. The increase in the total trade as compared with 1915 was 55 per cent.

The trade of the State is mainly with Singapore, from which Settlement came 70 per cent. of the imports and to which went 60 per cent. of the exports. The trade with Malacca is, however, increasing, the proportion of exports to, and imports from, that Settlement being for the year roughly 20 per cent. and 14 per cent., respectively, as compared with 25 per cent. and 10 per cent. in 1915. With Penang there is not merely a relative but an actual decline in both exports and imports.

The share of the State in the total external trade of the Federated Malay States, as shown by the returns of the Commissioner of Trade and Customs, Federated Malay States, has slightly increased, being 13.76 per cent. of the export and 8.06 per cent. of the import trade as compared with 11.86 per cent. exports and 7.28 per cent. imports in 1915. As, however, there are no statistics of inter-State trade within the Federation, these figures are only a rough guide to the actual production of, and consumption of, imported commodities.

THE CHANNEL FIGHT.

HEROIC MIDSHIPMAN'S STORY.

Midshipman Gyles, the hero of the destroyer broke in the Channel fight, interviewed in hospital said—

"I was asleep when the enemy was sighted. All hands were called to action stations. The first of the enemy's shells killed several of the crew. I was wounded in the right eye and momentarily stunned, but picked myself up, mopped away the blood with my coat sleeves, and ran to the gun. I found five of the men alive. 'Seaman Englehorn whose gun was out of action came to my help. He loaded the port gun. I loaded the starboard gun. Meanwhile several Germans boarded us yelling like mad all the time for mercy and shouting other things we couldn't understand. When they got on the deck they attempted to attack us. I pointed my revolver but a burly German—a regular giant—grabbed the weapon until Petty-officer Woodfield hit him on the face. The German attempted to run but Seaman Englehorn put a bullet through him. We tumbled him over the side. We then cleared the decks of all Germans, killing those who intercepted us and making the rest prisoners."

"Chief Petty Officer Tom Davies, a survivor of the Fortune, which went down in the naval fight off Jutland, interviewed, said: "I was in the Broke's stockhold, and was proclaimed from actually witnessing Commander Evans' fine-sought engagement. But I gathered the full details first-hand. We were quietly steaming at 14 knots an hour when we were signalled 'Full ahead.' We kept forward to 27 knots, and soon heard shells dropping overhead, and knew we were in action. A naval battle gives a man in the stockhold an uneasy feeling. He knows no little of what is happening, yet feels so much that minutes seem hours. A big bump announced our ramming the enemy. I sent up two hands to see what was going on. They returned with the welcome news that we were fighting the Germans, and winning. It was a trying time for us in the stockhold owing to the possibility of a shell crashing in on us. But there was no cracking and no waving. We worked on ceaselessly. Suddenly a cheer went up. We had won. Afterwards we heard how the fight had progressed, how Commander Evans had out-maneuvred the Germans, and how we destroyed their ships. Our casualties were light, and were mainly caused by a shell crashing aft of the stockhold. This was due to the treachery of a German destroyer, coming along apparently in distress, and seemingly ready to surrender. She fired into the Broke's stockhold, but paid a dear price. She was immediately torpedoed and sunk. I believe all hands were sorry."

A man releasing a torpedo was almost simultaneously killed, a shell fragment shattering his head, but he had a gallant service."

THE MAN WITH THE PLOUGH.

As our troops began their great fight on Bank Holiday they had one great fellow-worker—the Man with the Plough. "There was one figure in this landscape of war who made some officers about the laugh," says Mr. Gibbs, in The Chronicle. "He was a French ploughman who, upholds the tradition of war. Zola saw him in 1870, and I have seen him on the edge of other battlefields, and here he was again, driving a pair of sturdy horses and his plough across the sloping field not a furlong away from a village where German shells were raining rosy clouds of brick-dust. So he gave praise to the Lord on Easter morn and prepared the harvest which shall be gathered after the war."

ATTACK ON A JUDGE.

REMARKABLE INCIDENT IN A SYDNEY COURT.

An extraordinary scene occurred in the Equity Court at Sydney on May 1, when Mr. Alfred Conroy, the Independent candidate for the Parliament seat, in opposition to Mr. Joseph Cook, made an attack on the presiding judge, his Honour Mr. Justice Simpson. The action that was being heard was one in which Mr. Conroy was proceeded against by his wife with respect to the ownership of certain land. When his Honour refused an application for an adjournment counsel for the defendant, Mr. Lorton K.C., withdrew from the case. Mr. Conroy then took the position at the bar, the table vacated by Mr. Lorton, and, addressing the judge, said: "I ask that your Honour will not sit in this action, because your Honour has reached the stage of life when it is impossible for you to remember in the afternoon what has taken place in the morning. Your Honour is not fit to sit, at your time of life, on a big case like this. You are not able to recognise that matters of public interest are at stake."

Mr. Justice Simpson maintained a silence, and Mr. Conroy started off again, saying: "This action is being forced on at the present time because I am engaged in an election campaign."

Mr. Brown (who appeared for the plaintiff) said he regretted his Honour had to listen to such a gratuitous insult. His Honour: "I cannot take notice of what Mr. Conroy has said. An injustice will be done me if the case goes on. I am sorry to have to do what I have done. His Honour: Don't express any sympathy for me. I don't think the grounds for a further adjournment are sufficient. Later, his Honour left the court, refusing to hear Mr. Conroy further. When the court re-opened at 2 p.m., Mr. Conroy at once said, "I will resume my argument."

His Honour: You have finished. Mr. Conroy: You have a maggot in your brain. I am entitled to save in seeing your mental condition. You are a declared conserptionist. I am an anti-conserptionist, it is not likely I would be heard in this court with favour. This is the last act of your career. You are going to retire, but not with honour. Mr. Conroy then left the court, and the hearing of the case was proceeded with.

THE WESTERN FRONT

ACTIVITY ON THE FRENCH FRONT.

LONDON, June 22.

A French communiqué reports:

The artillery struggle continued to

the east of Vauxaillon and extended

to the night, the region south of

Filiat and north of Bray-en-

Laonnois, where it was very violent.

The Germans, yesterday evening,

attacked on the crest of Teton in

Châtignepagne and to the east of that

place, on a front of 400 metres.

They penetrated our advanced

elements but were driven out after

lively fighting. We entirely re-

established our line.

THE GREEK SITUATION.

KING ALEXANDER'S

PROCLAMATION.

LONDON, June 22.

In view of the surprise and in-

timation which has been aroused by

the new Greek King's first proclama-

tion, in which he expressed his

determination to carry out his

father's "sacred mandate," it is

noteworthy that King Alexander has

sent a letter to M. Zaimis, declaring

himself to be a faithful guardian of

the Constitution and expressing his

willingness to sincerely co-operate

with the Powers in maintaining

tranquillity and bringing about a

reconciliation between the different

elements of the Greek nation.

THE EX-KING.

LONDON, June 22.

Ex-King Constantine has gone to

Thessalonica, in the Canton of Grisons

(Switzerland).

M. VENIZELOS.

ATHENS, June 22.

M. Venizelos has arrived in the

Piræus. He will not visit Athens.

BRITISH AERIAL ACTIVITY ON

THE STRUMA.

LONDON, June 22.

A French Eastern communiqué

states:

The British air service bombed

enemy camps and depots between

Lake Doiran and the Vardar and on

the Struma, causing great damage.

DANISH MINISTERIAL CRISIS.

COPENHAGEN, June 22.

The Stockholm Conference has

caused a crisis in the Danish Cabinet.

The Conservative Minister, M. Rott-

boell, at the request of his party,

has objected to the activities of the

Socialist Minister, M. Stanning's,

Socialist Minister, M. Stanning, at

the Stockholm Conference.

RECRUITING METHODS

CRITICISED.

LONDON, June 22.

Mr. Macpherson's reply in connec-

tion with the re-examination of men,

was made during the course of a

debate raised by Mr. Pringle who

moved a resolution to reduce Lord

Derby's salary by £100 with a view

to drawing attention to the methods

of the Medical Boards.

Several Members denounced the

methods of the recruiting authori-

ties, including Mr. Asquith, who said

the experience of the last few weeks

had shown that men had been

secured by a means which was widely

resented in the country.

Mr. Macpherson said that the

Government was ready to appoint a

committee to examine the working

of the Act.

Mr. Bonar Law said that the work

of the War Office was never so

efficiently and conscientiously done.

Mr. Pringle withdrew the amend-

ment.

DUTCH COAL MINERS' STRIKER.

AMSTERDAM, June 22.

The *Telegraph* states that 70,000

Dutch coal miners are striking for

a minimum wage and an eight-hour

day.

HAYRE COTTON MARKET CLOSED.

PARIS, June 22.

The Hayre cotton market has

closed. A "concealment" was

attempted, and the Government is

engaging into the matter. Cotton

is short, and there has been wild

buying.

HONGKONG AND GERMAN

EXCLUSION.

QUESTION IN THE HOUSE OF

COMMONS.

LONDON, June 22.

In the House of Commons, Mr.

Gershon Stewart asked whether the

proposal made by the Hongkong

Chamber of Commerce, that Ger-

mans should be excluded from the

Colony for some time after the war,

was rejected by the Legislative

Council, all the official members

voting against it, and whether the

vote represented the view of the

Imperial Government. He also

asked whether Germans would be

free to re-enter the Crown Colonies,

especially where there was a large

native population, in view of the

risk of a repetition of hostile German

intrigue.

The Mr. Hon. Walter Long, Secre-

tary of State for the Colonies, replied

that he had seen the report, from

which it appeared that the Chinese

members of the Legislative Council,

and the official members, had voted

against the proposal. Mr. Long said

that the remainder of the questions

raised were matters of future policy

on which it would be premature to

express an opinion.

THE SILVER MARKET.

LONDON, June 22.

Silver is quoted at 30½d. There

is a scarcity of offerings, but the

market is firm.

LATER...

Messrs. Samuel, Montague and

Company's report states that the

price of 30½d. is a record, since

October 1902.

The report draws attention to the

statistics of Indian imports and

exports of silver during the last three

financial years, show that a net

import of over 60,000,000 ounces on

private account, during 1914-5; had

been turned into a net export of over

1,000,000 ounces. Also that the

net import, mainly in the latter

portion of 1915-7, over 100,000,000

ounces, which is probably well over

half the world's production.

OBITUARY.

LONDON, June 22.

The death is announced of Sir

Joseph Lyons.

[Sir Joseph Lyons was the head of the

firm of Messrs. J. Lyons and Co., Ltd.,

the well known caterers.]

EARLIER TELEGRAMS.

ENEMY RAIDS REPULSED BY

THE BRITISH.

LONDON, June 22.

Field-Marshal Sir Douglas Haig

reports:

Our fire repulsed raiders southward

of the Bapaume-Cambrai Road and

eastward of Valenciennes, where another

enemy party entered the front line but

was immediately driven out. A few of

our men are missing.

The enemy's artillery has been active

astride the Scarpe.

INCREASED ACTIVITY ON THE

FRENCH FRONT.

LONDON, June 22.

A French communiqué says:—The

fighting has continued to our advantage

east of Vauxaillon. Our counter-attack

on a trench in the sector of Moisy Farm

gave important results. Up to the

present we have recaptured all the

positions with the exception of a salient

of 400 metres to the north-eastward,

where enemy parties are still holding

out. Artillery duels are lively in this

region. Our lines were bombarded fairly

lively between Hyntheuse and Croome.

In Champagne, our advance to the

north-east of Mont Cornillet was

particularly brilliantly accomplished.

The enemy attempted to recapture

positions wrested from him on the 18th,

but was repulsed by bombers, who then

took the offensive and pursued them in

to a trench from which they emerged

and were captured. We thus advanced

300 metres deep on a 600 metre front.

One hundred enemy bodies were left

on the ground.

THE CANADIAN CORPS.

THE NEW COMMANDER.

OTTAWA, June 22.

Sir R. L. Borden, on behalf of the

Government, has cabled congratulations

to General Currie, in command of the

Canadian Corps. The message, conclud-

ing, says:—"We bid you God speed.

EVACUATION OF WEST FLANDERS.

AMSTERDAM, June 22.

It is reported that the evacuation by

the civil population of the west of

Flanders continues. Two thousand

have moved from places behind the

front.

ITALIAN MINE DESTROYS A

GARRISON.

LONDON, June 22.

A Italian official message transmitted

by wireless says:—"We exploded a

powerful mine on the spur of

Piccolo Laganzoni in the Ampezzo sector,

destroying a garrison. Alpine troops

carried the summit of Hill 2,668, on

Piccolo Laganzoni, establishing them-

selves there.

COSSACKS' TENACIOUS WAR

SPIRIT.

PETROGRAD, June 21.

At the opening of the pan-Russian

Congress of Cossacks, the President ap-

pealed to them to fight the enemy with-

out and the enemy within.

Military delegates demanded stronger

measures against the Leninists, whom

they denounced as traitors. They also

demanded the formation of a special

Cossack Army, which would be ready

to die on the field of honour.

The Congress displayed a tenacious

war spirit.

MARTIAL LAW AT TOMSK.

PETROGRAD, June 21.

Martial law has been proclaimed at

Tomsk, owing to wholesale murders and

robberies by armed criminals called

to the colours, and anarchists. Two

thousand three hundred have been

arrested; twenty of the resistors were

killed and a number wounded.

FRENCH SHIPPING REPORT.

PARIS, June 22.

The French weekly shipping report

says that during the week ending the

17th inst., the arrivals have been 1,028

and the sailings 1,122. There were no

sinkings above 1,600 tons; five vessels

below this tonnage were sunk. Five

vessels were unsuccessfully attacked.

RE-EXAMINATION WILL YIELD

60,000 MEN.

LONDON, June 22.

In the House of Commons, Mr. Mac-

pherson stated that the War Office

estimated that the re-examination of

discharged and rejected soldiers would

yield 60,000 men for service abroad.

Sixty thousand of other categories,

discharged wounded and invalided from

abroad, could claim final discharge.

TWO NEW BRITISH ORDERS.

LONDON, June 22.

The King has instituted two new

Orders in recognition of war services by

Britons and Allies. One is styled "The

Order of the British Empire," which is an

Order of Knighthood open to both sexes,

woman having the prefix Dame in the

higher classes.

The second Order is entitled "The

Order of Companions of Honour." This

is for one class only and does not carry

title or precedence. Women will be

equally eligible with men. The first

lists are to be issued shortly.

ITALY'S SPECIAL INTERESTS.

ROME, June 21.

In the Chamber, the Foreign Minister,

M. Sonnino, speaking of the war aims,

said that Italy's special interests were

equally bound up with Albania and the

direct possession of Valona and the

hinterland. They desired to defend

Albania from outside interference but

were willing that it should be inde-

pendent internally. He declared that

any peace which strengthened the chains

binding *Italia Irredenta* and omitted

reparation for Belgium and the recon-

struction of Poland would be an outrage.

RUSSIA CONSECrated TO THE

WAR.

WASHINGTON, June 22.

M. Bakmetiev, head of the Russian

Mission to the United States, in a state-

ment to the American people, avowed

Russia's consecration to the war with

German autocracy to the end. Only

through victory could a stable world

peace and the fruits of the Russian's

revolution be secured. "The Russian

people thoroughly understand, and are

fully convinced, that it is absolutely

necessary to root out the autocratic

principles which underlie German

militarism, that threatens the peace,

freedom and happiness of the world."

LIFE WITHOUT HEALTH IS LIVING DEATH.
VETARZO BRAIN AND NERVE FOOD

The latest discovery of modern times, is without equal in all cases of defective nerve and brain power,
whether induced by worry, overwork, dissipation, or other influences. Sleeplessness, palpitation,
defective circulation, nervous dyspepsia, loss of vitality, low vitality, mental and bodily prostration,
want of confidence, general debility, premature decay or deficiency of the vital forces, loss of vitality,
nervous tremors, restlessness, that can be so easily remedied by the use of this powerful and
bactericidal, bearing down on all nervous diseases, consumption, night sweats, muddy,
high-colored water, etc., are all so many different phases of brain and nerve weakness and
exhaustion, the cause of by far the greater portion of the misery, ill-health and dependency of
which we are confronted on every hand, that can only be successfully combated by the use of this
wonderful and highly scientific preparation. Bracing up the system generally, it gives tone to the
exhausted nerves, arrests all weakness, restores the falling energies, and imparts new life and vigor to those who had so recently seemed played out, used up and valueless.

HONGKONG TIDES.

The tide-table given below has been
compiled at the National Marine Office
in London from the result of the analysis
of observations taken by means of an
automatic tide-recording machine in the
Water Police Basin at Tsim Sha Tsui
during the years 1913-14.
The zero of the table corresponds with
the zero of the sounding in the Admiralty
Chart, which has been found to be 4 feet
3 inches below mean sea level.
To obtain the depth of water on the
side gauge at the Victoria Naval Yard,
add 2 feet 4 inches, and on the gauge
at Mount Dock, Aberdeen, add 10 feet
4 inches to the height given in the table.

June 24th to July 1st, 1917.

NEW TYPHOON SIGNALS.

New Local and Non-Local Storm
Signal Codes will be introduced at
Hongkong on 1st July, 1917, in place
of the old Local Code, and the China
Coast Code.

The principal change in the Local
Code is that the new signals will show
the direction from which the gale is
expected, whereas the old signals
showed the position of the typhoon.
The latter will be indicated, as hereto-
fore, by the Non-Local Signals. The
new Local Code is given below—

DAY SIGNALS.

- 1.—Red cone, point upward, will
mean a typhoon exists which may
possibly cause a gale at Hongkong
within 24 hours.
- 2.—Black cone point upward—Gale
expected from the North (N.W. to
N.E.).
- 3.—Black cone point downward—Gale
expected from the South (S.E. to
S.W.).
- 4.—Black drum—Gale expected from
the East (N.E. to S.E.).
- 5.—Black ball—Gale expected from
the West (N.W. to S.W.).
- 6.—Two black cones, top one in-
verted, bottom one point up—Gale
expected to increase.
- 7.—Black cross—Wind of typhoon
force expected (any direction).

Signal No. 7 will be accompanied by
three explosive bombs, fired at intervals
of 10 seconds at the Water Police
Station and repeated at the Harbour
Office.

The signals will be lowered when it
is considered that all danger is over.The Day Signals will be displayed at
the masthead of the storm signal mast
on Blackhead Hill, the Harbour Office,
H.M.S. Tamar, Green Island signal mast,
the flagstaff on the premises of the
Hongkong and Kowloon Wharf and
Godown Company at Kowloon, the
flagstaff on the premises of the Standard
Oil Company at Lai-chi-kok, and the
flagstaff near the Field Officer's Quarters
at Lyemun.

NIGHT SIGNALS. (Lamps)

- 1.—White, White, White.
- 2.—White, green, green.
- 3.—Green, white, white.
- 4.—Green, green, white.
- 5.—White, white, green.
- 6.—Green, green, green.
- 7.—Red, green, red.

The Night Signals will be displayed,
at sunset, on the tower of the Railway
Station, on H.M.S. Tamar, and on the
Harbour Office flagstaff. They will
have the same signification as the day
signals.Signal No. 7 will be accompanied by
explosive bombs as above, in the event
of the information conveyed by this
signal being first published at night.

SUPPLEMENTARY WARNINGS.

When local signals are displayed in
the Harbour, a Cone will be exhibited
at the following stations:—Gap Rock,
Waglan, Stanley, Aberdeen, Sau Ki
Wan, Sai Kung, Sha Tau Kok, Tai Po
across Fahrenheit.2. TEMPERATURE in the shade, in de-
grees Fahrenheit.3. HUMIDITY, in percentage of satu-
ration, the humidity of air saturated with
moisture being 100.

4. DIRECTION OF WIND, to two points.

5. FORCE OF WIND, according to
Beaufort Scale.6. STATE OF WEATHER, h. blue sky,
c. detached cloud, d. drizzling rain, f. fog,
g. gloomy, h. hail, lightning, o. overcast,
p. passing showers, q. equal rain snow
thunder, r. visibility, w. dew wet.7. RAIN in inches, tenths and hun-
dreds.to "Stand By" and watch for the next
signal.In the new Non-Local Code the
approximate velocity of the storm
centre will be shown, in addition to its
direction of motion, and the position of
the centre will be given in degrees
